success in having him to stick to his story he may be leary of going to court for the reason of his excuse to the Friday night.

Now regarding the ex Jersey City cop, Mr Koch who was on the Jersey City force at the time the Italian was in a high mason and he & his brother bought out the largest Garage business here, about a year ago and he stated to me he would only be too glad to testify as to his reputation also to him having broke in Police Dept. and am sure he can get for us Record from Police Dept if you require same from records. am sure he has right party and do not fear of contradiction regarding information he gave me.

I am certainly sore regarding stupid errors by either Klingman or Senator Vidal regarding Lauck as I have certainly wasted a lot of time and feel very sorry in the delay.

Will drop in Senator Case's office early Monday A.M.
